OMG THIS GAME RULES. E.Wolf's -5

1. When I first got this game, I thought it was hilarious. I enjoyed unlocking the achievements by drinking and eating a certain number of various objects, from wine to socks. A few updates later, the game is released with basically nothing different. Not worth the price at all.
2. If you are going to buy it and try to unlock all the achievements, make sure to get a copy for a friend too. There are several multiplayer achievements and multiplayer is basically non-existent. I tried to get the multiplayer achievements within the first few days after the game was fully released and I still could not get enough games started.
3. Three game modes: drink bottles, smash bottles, or multiplayer which is both game modes racing against each other. There is a time limit regardless of your game mode.
4. Two small maps. I like the decent amount of detail in the maps, but it gets boring fast.
5. The screen gets blurrier as you continue to drink. With the time limit it will not last too long, but it could be a serious issue for anyone who cannot play a game with blurry effects.. Game won't even work, I launched it figuring it would be good for a laugh and none of the controls even work.
